If you do not have a prior appointment and the area/materials are occupied, you will be able to consult our staff where there is the possibility to enjoy the service without reservation, as EULEN Sport has an internal control system where the capacity on each of the beaches is recorded in real time, thus facilitating the use of the adapted bathing points.

It is important to note that under no circumstances may periodic reservations be made more than 3 days in advance at any of the points, ensuring the proper use of the reservation system at all times. Groups of more than 5 people must inform one week in advance in order to be able to relocate the rest of the users to other time slots in case of a coincidence of day.

#### Special considerations

In the event that, for personal reasons and/or mobility, the user considers using the materials, but not the accompaniment, since they will do it alone or in the presence of a friend or family member, a document of responsibility will be signed.

#### Use of the changers

Users of the adapted bathroom service may at all times make use of the changing rooms located in the designated areas. These will remain closed to preserve a good state of cleanliness and preservation. Our staff will hand over the keys upon request.

They may not be used as wardrobes or lockers for individual use.

#### Personal properties

Under no circumstances shall EULEN Sport or the City of Dénia be liable for the deterioration or removal of any item of personal use.
